Your event is not a rehearsal...

Our core expertise

Classical instruments playing popular music. Old & new songs served with creative interpretation and execution. We've mastered our instruments and put together our strengths and understanding of music in every note of every song.

The Peach Difference

We don't just sit & play. We perform & engage. We don't just take & play music pieces. We create & write our own arrangements. We part-own your event!

Music & Meaning

We believe in the power of music to change almost everything. That's one reason why we endured long nights and days to master our craft. We understand the value of music to create a remarkable event. That's one reason why we carefully choose our repertoire. We understand the importance of music in setting the tone and mood of the event. That's one reason why we passionately understand what the event is about. We add value on the event by going beyond our musical ability. We add meaning.

Goals & Direction

We understand how delicate an event is. Just like our client, we want to produce music that entices imagination, touches the heart, and satisfies one's craving for quality music. We act as music consultants to help our clients achieve their goals. We advise our clients in the areas of music. We believe in fair trade: **you always get more than what you pay for.** Your event isn't a rehearsal.

A remarkable performing group with a unique approach in music. They are one of the best string quartet I've ever seen!

—Neil Delgado, Aquabest

When it comes to string music, this is the only name I now know. I've forgotten many others.

—JC Libiran, Crossroads e3 Beyond Training and Development Center

An inspiring group that produces an inspiring sound to serenade your guests. Corporate events must get Peaches if they want real music!

Our Stand

We believe in fair trade. Every client must get more than what they pay for. We are not paid to rehearse during performances — the reason we rehearse regularly.

An Advocate of Healing

Sometime in December 2011, motivational speaker and author Lloyd Luna presented to professional musicians his vision that would change the way most people appreciate classic instruments and its music.

They formed a post-calamity string quartet, a response to the devastating typhoon Sendong that left thousands of people homeless and hopeless.

While the victims primarily need water, food, and shelter, we feel they would also need music to start the emotional and spiritual healing process. These people need some inspiration and the sound of strings might be one best way to help them recover easily from the tragedy—typhoon, fire, earthquake, and floods among others.

We can accomplish this mission only when we do our best to raise funds through performances. That's why part of what you're paying us helps us reach these communities that need our music.
